Omnitracs

Omnitracs Intelligent Vehicle Gateway

Give drivers a powerful, secure, and flexible Electronic Logging Device (ELD) that's easy to use and supports other Omnitracs solutions by delivering the data needed to manage any fleet

An ELD that's compliant and driver-friendly

Designed with the driver in mind, the Intelligent Vehicle Gateway provides a 1024 x 600 resistive touchscreen display, an easy-to-read self-dimming screen, intuitive alerts, and hands-free functionality to improve driver satisfaction on the road.

Solution highlights

Input/output for running third party diagnostics

Ruggedized outer shell and industrial-grade processor

HoursGO app for out-of-vehicle access to driver logs

Cellular and satellite network connections
