

Trailer Management

Tanker Trailer Management

GPS Tracking and Intelligent Equipment Management

Know exactly where your valuable trailer assets are and keep them safe, with FL Flex 2™ from Spireon. We understand that tankers are a high value asset, and so is the precious cargo you're transporting. Whether you haul chemicals, industrial gas, oil, or food-grade bulk products, we have a wide-variety of sensors customizable to your exact needs. Quickly see which of your trailers are in use, even at a customer's site, so you can turn trailers faster. Monitor all this data from one easy-to-use online portal, FleetLocate™.

Benefits

OPTIMIZE TRAILER UTILIZATION

With trailer tracking, you can see exactly where the nearest driver is, so you can quickly respond to last minute jobs.

ENSURE PRODUCT AND STAFF SAFETY

Stay informed of cargo temperatures and other vital metrics with probe sensors available to be added to your GPS tracking solution.

IMPROVE TRAILER READINESS

Know with confidence that your trailer's tires are properly inflated. Proactively manage trailer maintenance to reduce equipment downtime and keep drivers safe.

REDUCE TRAILER DETENTION TIME AND DWELL TIME

Enhance operational efficiency and reallocate resources on the fly with key data at your fingertips. Increase revenue with additional trailer turns.

MANAGE LEASED TRAILER AND ASSETS

See the status and location of all your assets in one easy-to-use online portal, FleetLocate. Monitor your valuable assets and ensure you're always optimizing your operations.

FL Flex 2™
